Translationassist

CMS Website

Highlights

- Translation Assist began as the brainchild of two friends from South Africa who realized the importance of words. They saw how a clear understanding between people can build a bridge of real connection, and how misunderstandings can cause division. With this in mind, they sought to create a platform to help others connect, in business, in life, and in relationships. And so Translation Assist was born from humble beginnings, and has grown to what it is today – a fledgling business with big corporate clients globally, and individuals as well – bringing together the world, understood.
