Hotel Management System

For Demo, Please Email or Call:

The screenshot displays a comprehensive dashboard for a Hotel Management System. At the top, a navigation bar includes the system name 'HOMS', language 'English', and user 'Ashis Nath'. A left sidebar lists various modules: Dashboard, Engineering, Housekeeping, Tasks, Front Office, Minibar, Lost and Found, Administration, PMS, and Settings. The main dashboard area is divided into several sections:

- Summary Cards:** A grid of eight cards showing key metrics: Today's Expected Arrival (2), Today's Expected Departure (48), Actual Departure (145), Actual Arrival (49), Stayovers (663), Due Out (2), Total Occupied (258), Total Guest Request (1), On Duty (15), Off Duty (1), On Break (1), and Idle (9).
- Current Work Order:** A section for a new issue at location 101, currently in progress.
- Room Service Activities:** A list of tasks for rooms 101 through 105, all assigned to Micale Adam Clark and marked as 'Dirty'.
- Daily Room Status:** A donut chart showing the distribution of room statuses: Dirty (278, 99.64%), In Progress (1, 0.36%), Inspection in Progress (0, 0%), and Inspected (0, 0%). A legend defines the colors for each status.
- Progress Bars:** A row of four progress bars corresponding to the room status categories, showing their respective counts and percentages.

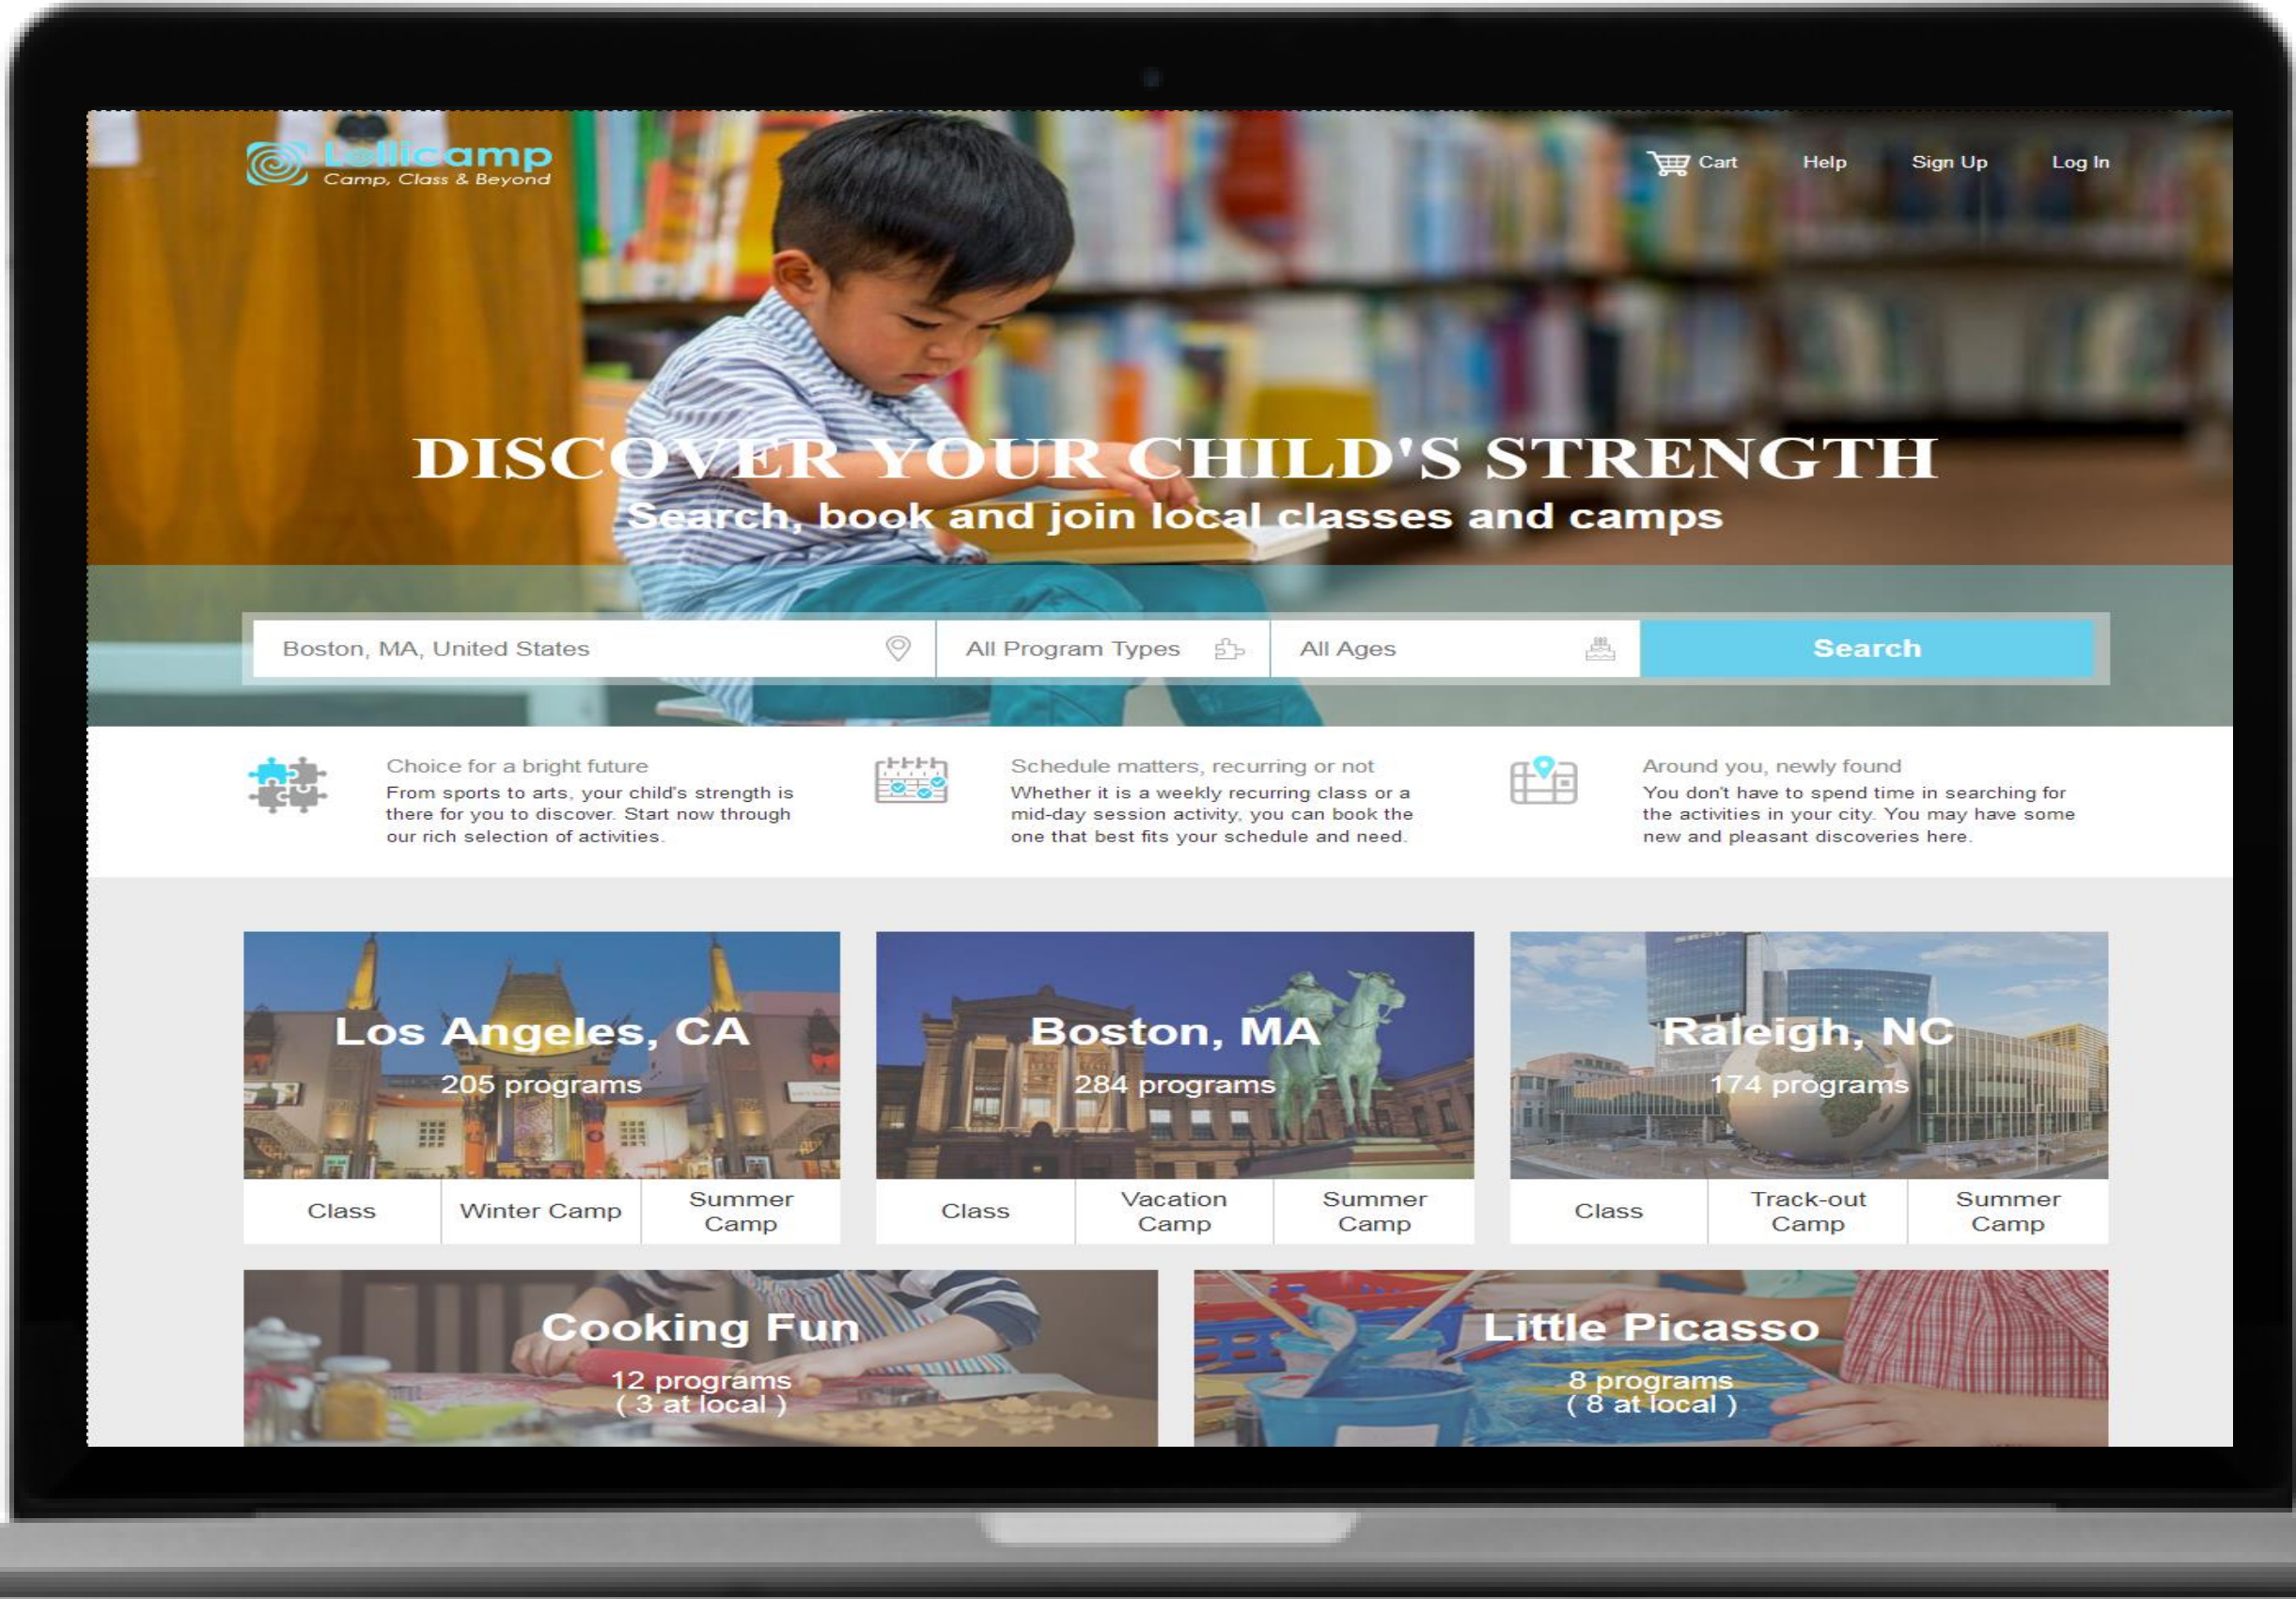

Iguanahop

Marketplace for Summer Camps and After School Programmes

Highlights

- Iguana Hop is the leading marketplace for summer camps and after school programs. It evolves the way parents meet their children's growth need by connecting more children to the right learning activities. It provides parents with a rich, diversified, and targeted selection of local camps, classes and programs, and assists activity providers to reach more families in an efficient and risk-free way.

Cloud-based Marketplace for the industry's best Materials and Services

For Demo, Please Email or Call:

Highlights

- A unique platform where suppliers can bid for projects and clients can have the best service and material providers quote them direct in real-time.

The business goal/objective is to build marketplace app that will be part of this platform as a whole. This Marketplace is intended to connect Buyers (buyers) with building material suppliers and service providers. Buyers will be able to search the marketplace for their building material needs or services, submit request for quotes for their special needs, get offers/quotes from suppliers and place orders based on the offers that suite them.
